

IN THE SPECIFICATION:

Please amend the paragraph at page 5, from line 16 to line 29, to read as follows:

As is illustrated in Figs. 1, 3 and 6 to 10 ~~Figs. 3 and 6 to 10~~, in a presently preferred embodiment, the shelter of the invention also comprises a canopy peak support assembly 46 movable between a raised position 47a and a lowered position 47b shown in dotted lines in Fig. 1 ~~a raised position and a lowered position~~, and supporting the canopy above the top of the leg assembly in the raised position. The canopy peak support assembly preferably includes a plurality of telescoping pole members 48 each having a first or distal end 50 for supporting the canopy and a second or proximal end 52, with the first ends of the telescoping pole members being pivotally connected together, and the second ends of the telescoping pole members being pivotally connected to the leg assembly such that the telescoping pole members can moved between a downwardly directed position and an upwardly directed position supporting the canopy. As is illustrated in Figs. 9 and 10, in a presently preferred aspect of the invention, the first or distal ends of the telescoping pole members are pivotally connected together by bolts 53 to a central bracket member 54 adapted for supporting the canopy.
